Subject: Name change for Master Builders Solutions products

22 Jan 2024

Dear Sir / Madam,

In May 2023 Sika AG closed the acquisition of MBCC Group from Lone Star Funds. Effective end of 2023 Sika began changing the product names of MBCC's construction chemicals portfolio to integrate them into the Sika brand architecture. MBCC through its Master Builders Solutions products and Sika have been leading suppliers of products to the construction industry for over 100 years. The new naming will strengthen Sika's global resources to provide expert solutions to the challenges of our customers in their projects.

The new product brands will consolidate many historically strong brand names which are in the Master Builders Solutions portfolio including, MasterBrace, MasterEmaco, MasterFlow, MasterInject, MasterProtect, MasterSeal, MasterTop, MasterTile, MasterGlenium, MasterEase, MasterRheobuild, MasterPozzoloth, MasterLife, MasterRoc, and more. It will encompass our complete combined product and systems offering for admixtures, concrete repair and protection materials, performance grouts, sealants, waterproofing systems, tiling solutions, underground construction solutions and flooring solutions.

To reflect the new brands, we will be harmonizing the Sika brands with the MBCC products. **Every product name will include the prefix "Sika"**, followed by either a recognizable portion of the original product name or number that represents the use or key function of the product, as illustrated in the table below and Annex I on the next page:

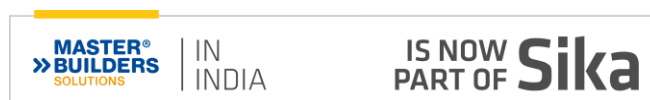

| Previous Product Name | New Product Name |
|-------------------------|----------------------------|
| MasterEmaco S 488 | SikaEmaco® S 488 |
| MasterInject 1380 | SikaInject®-1380 |
| Ucrete® HF | Sika® Ucrete® HF |
| MasterSeal M 800 | Sikalastic® M 800 |
| MasterGlenium® SKY 3547 | Sika® ViscoCrete® SKY 3547 |
| MasterPolyheed® 3400 | SikaPlast® PH 3400 |
| MasterRheobuild® 3200 | Sikament® RB 3200 |

Despite the change of names, the composition of the product and its properties / performance remain unchanged - this is a pure name change only.

All documentation and certification existing under the old product names remain valid. To ensure a smooth transition, we will utilize both the new name and the old name on our documentation for a transition period. The documentation consists of:

1. Technical/ Product Data Sheet (TDS / PDS)
2. Material Safety Data Sheet (MSDS)
3. Product Packaging / Product Labeling
4. Invoice.

Master Builders Solutions India Private Limited
Registered Office:
Plot No D-126, TTC Industrial. Area, MIDC,
Shiravane Navi Mumbai, 400706 Maharashtra, India
E-mail: Construction-india@mbcc-group.com
www.mbcc.sika.com/en-in
CIN - U24299MH2019FTC331051

As an example, it will be seen as the following:

Sika® ViscoCrete® SKY 3547

(Formerly: MasterGlenium® SKY 3547)

In the process, the existing packaging of Master Builders Solutions products will also undergo streamlining as per new Sika brand guidelines, packaging color scheme and design (for e.g. from blue barrels to yellow barrels as per Sika guidelines, which is now being executed in selected sites). Going forward, you will read more announcements about the transition of the Master Builders Solutions brand to Sika brand.

Please note that there is a gradual change to a final state in two phases:

1. Phase I: Implemented w.e.f. 5th February 2024, the changes will be impacted in all touch points, partially or fully – the list is attached in Annexure II which is primarily for imported products as the changes will reflect in the invoice and the TDS/PDS and MSDS;
2. Phase II: Will be effective from 1st April 2024, where the changes will take place across the entire Master Builders Solutions product range.

(any change in the above dates will be communicated to you and / or your colleagues in advance)

Our team will reach out to you and your colleagues, in person, as soon as possible to inform you the same and the date of implementation of two phases.

You may also reach out to our local representative for more information.

Kindly acknowledge the same and oblige.

Yours sincerely,

Nilotpol Kar,
Managing Director,
Sika India Pvt. Ltd.

Yumi Kan
Area Manager South Asia, Head TM Concrete & Eng. Refurbishment APAC,
Sika Asia Pacific Management Pte Ltd.

Annexure I – Product naming illustration

| Master Builders Solutions product name | New Sika product name |
|---|------------------------------|
| MasterTile® 30 | SikaCeram®-30 |
| MasterEase® 3808 | Sika® ViscoCrete®-3808 Ease |
| MasterFinish® 288FD | Sika® Separol®-288 FD |
